

## Mourning Alice Endress

Widow of the Endress+Hauser company founder dies after a brief illness

**The Endress+Hauser Group is in mourning for Alice Endress. Following a brief illness, the widow of the company founder died peacefully in her sleep on 6 July 2016, surrounded by her family. She was 97 years old.**

Alice Endress-Vogt was born on 14 May 1919 in the community of Schwyz in central Switzerland. After attending a trade and hotel management school, she moved to the south of Switzerland where she met Georg H Endress who was performing his military service in Tessin. The couple married in 1946 and had their first child, a son, one year later. Three more sons and four daughters followed.

Throughout her life, Alice Endress deliberately maintained a distance from the company that her husband started in 1953. For many Endress+Hauser employees she was nevertheless an important and esteemed person. She was present at many company events until the last months of her life, especially in the Basel region, and always felt very comfortable in the midst of things. She attended the annual Endress Family Day in Berlin as recently as May 2016.

Alice Endress will be laid to rest in Arlesheim, Switzerland next to her husband who passed away in 2008. Family and companions will say their final farewells during a service at the Arlesheim Cathedral on 19 July 2016, beginning at 2:00 pm.

The Endress+Hauser Group mourns Alice Endress-Vogt (1919–2016).

## **The Endress+Hauser Group**

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs 13,000 personnel across the globe, generating net sales of more than 2.1 billion euros in 2015.

## **Structure**

With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 12 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

## **Products**

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

## **Industries**

We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

## **History**

Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
